

Settling-in Support

These flexible programmes from Team Relocations are designed to ensure the employee and their family are settled-in comfortably, and that they are able to integrate into their new community with confidence.

Our Client Manager will guide the employees and their family and show them how to utilise the resources available to them effectively, thereby successfully integrating them into their new community.

This programme is similar to Destination Orientation but as it is delivered post-arrival, it is tailored to the specific area the employee has moved to.

Orientation

- Cultural briefing and awareness
- Commuting – private and public
- Doctor, dentist and hospitals
- Security, crime, authority liaison
- Transport – private and public

Lifestyle

- Banking and finance
